13. Cost Effectiveness Analysis :

14. Feedback from Host Community :

The participants show interest in the production side of the Giant Swamp Taro. They were hoping to have the marketing details of the GST plant as they also witnessed the abundance of the plant in their municipality.

15. Realizations and Opportunities for Improvement:

Evaluate the level of community engagement during the outreach activity to identify successful strategies that fostered participation interest as well as to determine if the community members actively involved in discussions

Assess the effectiveness of information dissemination to find out if the community gains a better understanding of the Giant Swamp Taro's relevance and uses. Explore any new connections or partnerships established during the outreach activity. Assess the potential for ongoing collaboration with community members, local organizations, or other stakeholders interested in the Giant Swamp Taro.

Opportunities:

Evaluating the communication strategies revealed the need for enhancements. While information was effectively conveyed, there was room for refining messaging and delivery methods to cater to diverse audience preferences and learning styles. The methods of dissemination allowed community members to actively explore the various applications of the Giant Swamp Taro, fostering a deeper understanding and appreciation.

TRAINING AND ACTIVITY REPORT

The outreach efforts contributed to a positive shift in community perceptions regarding the Giant Swamp Taro. As participants grasped the potential benefits of integrating the plant into their lives, attitudes towards its use evolved, creating a more favorable environment for further exploration and adoption.

A commitment to incorporating local perspectives and traditional knowledge emerged. Recognizing and respecting existing practices and beliefs within the community regarding the Giant Swamp Taro became integral to future initiatives

16. Recommendation/s :

Based on the interaction with the participants, the primary recommendation on the concluded extension activity is to proceed with the follow-up under the outreach PROduction (from 3 PROs) through presentation, demo, and training of making food products from GST.
